

CRITERIA FOR THE ERASMUS SCHOLARSHIP AWARD RANKING 2020/21

The ranking is determined by applying a formula that considers:

- Weighted average
- Gained credits
- Study course year

Assessment by the Examination Committee of any other details relating to the student's career, the reasons stated in the call application and the final selection interview.

The formula used to determine the ranking based on above criteria is the following
:

$$P = [(CR) / (60 \times (A - 0,5))] + M + C$$

where

P [punteggio = score] is the final

ranking score CR is the credits

gained

A [anno = year] is the

year of enrolment M

[media = average] is the

weighted average

C is the score assigned by the Committee at interview

General rules

The credits (CR) gained and the weighted average (M) thereof are those shown in the application for the call and the attached self-certification.

The Committee will draw up a ranking based on the score (P) achieved based on the above formula.

Students enrolled on the master's degree courses in Law, the first degree course in Legal Sciences and the first degree course in Corporate Legal Expert are excluded from the allocation of scholarships which, based on the agreements stipulated with the relevant Universities, are reserved for students enrolled in the first degree and specialist degree course in Social Services.

All scores being equal, applicants enrolled on the master's degree courses in Law will prevail over applicants enrolled on first degree courses, subject to the places reserved for students on the Social Services degree courses.

Where the scores achieved by applicants enrolled on the master's degree course in Law are equal to those achieved by applicants enrolled on first degree courses, applicants enrolled on the latest course year will prevail.

Where students have transferred from a Legal Sciences degree course to a master's degree course in Law, the course year (A) will be considered the year of enrolment on the master's degree course.

Where students who have been awarded a first degree in Legal Sciences transfer to a master's degree course in Law, the course year (A) will be considered the fourth year of enrolment on the master's degree course in Law.
