

**Selection criteria for Erasmus+ scholarships for study purposes and Erasmus+ scholarships for traineeship purposes**  
(valid for academic year 2020/2021).

**MEDICINE AREA – Medicine Area Courses**

**MINIMUM REQUIREMENTS FOR ACCESSING THE “ERASMUS+ FOR STUDY PURPOSES” AND “ERASMUS+ FOR TRAINEESHIP PURPOSES” SELECTION**

- 1) **ONLY for Students on the Master's Degree Course in Medicine and Surgery:** average mark in exams of no less than 25/30 for undergraduate applicants and degree score of no less than 100/110 for graduate candidates.
- 2) **For students on all the other Courses at the School of Medical and Pharmaceutical Sciences:** average mark in exams of no less than 24/30 for undergraduate applicants and degree score of no less than 100/110 for graduate candidates.
- 3) Having no more than **two exams from the previous academic year or earlier years left to take at the time the application is submitted.**
- 4) The Erasmus+ scholarships for traineeship purposes are only available to students enrolled for the 5th or 6th year of the Medicine\* and Surgery and Dentistry and Dental Prosthetics courses, students enrolled for the 2nd year of first degree courses and students enrolled for the 3rd years of first degree courses who wish to undertake a postgraduate Erasmus+ traineeship, students enrolled for the 1st or 2nd year of two-year Master's Degree courses, where applicable.

*(\*) Exceptionally, Erasmus+ scholarships will be available to students on the Master's Degree Course in Medicine and Surgery as early as the 4th year, provided that they have an average mark of 27/30, have no exams left to take from previous years and intend to undertake a period abroad of only 2 months; in order to avoid interfering with their educational progress.*

**ASSESSMENT CRITERIA**

The assessment criteria will be applied by the Scholarship Selection Committee appointed for this purpose, which will identify and call the applicants for interview, **which is essential to be admitted to the ranking.**

The **maximum score** awarded will be **80 points**, divided as follows:

**1) CANDIDATE'S INDIVIDUAL CURRICULUM - MAXIMUM SCORE 44 POINTS**

For students enrolled at Specialisation Schools: average of exam marks for students enrolled for the 2nd year onwards; degree score for students enrolled for the 1st year.

For students enrolled for Research Doctorate Courses: degree score.

For students enrolled for Master's Courses: degree score.

For students enrolled for the Degree Course in Medicine and Surgery and the Degree Course in Dentistry and

Dental Prosthesis: average of exam marks and number of exams taken (see points 1, 3 and 4 of the minimum requirements).

For students enrolled for the three-year first degree courses in “Biotechnology”, “Motor Sciences” and Healthcare Professions, as listed here:

([://www.studenti.unige.it/offertaformativa/](http://www.studenti.unige.it/offertaformativa/))

average of exam marks and number of exams taken (see points 2 and 3 of the minimum requirements).

For students enrolled for the Master’s Degree Courses in “Biotechnology”, “Motor Sciences” and Healthcare Professions, as listed here:

<http://www.studenti.unige.it/offertaformativa/>):

average of exam marks and number of exams taken (see points 2 and 3 of the minimum requirements).

## PROCEDURE FOR ASSIGNING CAREER SCORES

A maximum of 30 points will be assigned for the average mark. A maximum of 14 points will be assigned for the exams taken.

In particular:

a) For students on the Degree Course in Medicine and Surgery, the non-weighted average will be calculated, excluding the 2018/2019 and 2019/2020 cohorts, for whom the weighted average will be calculated; for students of other courses the weighted average will be calculated.

b) Exams taken during the current year and in previous years (maximum of 14 points) assigned according to the following system:

Students who have exams left to take from previous years: 4 to 7 points If there are two exams left: 4 points

If there is one exam left: 7 points

Students who have no exams left to take from previous years: 8 to 14 points If all the previous year’s exams have been taken: 8 points

If at least 1 exam was taken in semester 1: 10 points If at least

2 exams were taken in semester 1: 12 points If all the exams

were taken in semester 1: 14 points

*If the student has exams left to take from the previous year (maximum of 2 exams, see point 3 of the “Minimum Requirements”) but has taken exams set during the current year, these will be counted algebraically, offsetting any exams left to take from previous years against exams taken in the current year.*

Degree scores of 110/110 will be converted to 30/30 by proportional calculation. This applies to graduate students who have been requested to deliver a self-certification of their degree score for assessment during the interview.

Distinctions [cum laude] will not be counted in the assessments out of 110 or out of 30.

Scores will be rounded up to the nearest third decimal.

## 2) KNOWLEDGE OF FOREIGN LANGUAGES (MAXIMUM SCORE 26 POINTS)

Knowledge of foreign languages **will be assessed based on the results of the tests taken in the SETTORE SVILUPPO COMPETENZE LINGUISTICHE [LANGUAGE SKILLS DEVELOPMENT SECTOR]** for each of the following languages: English, French, Portuguese, German and Spanish, or on presentation of certificates and/or statements declaring the student’s knowledge of these languages. These documents must explicitly state the assessment based on the A2, B1, B2, C1, C2 levels. They may also be attached during presentation of the Erasmus+ selection application and must have been obtained after 01/01/2018.

Each language test or certificate may lead to a level being gained to which a score will be assigned according to the following table:

Level of language	Score	Bonus
B1	1	1
B2	2	2
C1	3	4
C2	4	6

The score achieved in the test or certificate, corresponding to the teaching language stated in the PDF Annex for the organisation entered as the first choice from among those listed by the student when submitting the application will be increased by a bonus of: 6 points (for level C2), 4 points (for level C1), 2 points (for level B2), 1 point (for level B1).

Statements issued by CLAT and non-CLAT certificates are valid if dated later than **1 January 2018**.

### 3) PERSONAL REASONS (MAXIMUM SCORE 10 POINTS)

Personal reasons will be assessed during the compulsory interview held at the School of Medical and Pharmaceutical Sciences, at the time and place which enrolled students will be advised of here:

<http://www.medicina.unige.it/ufficio-internazionalizzazione>

The committee will pay particular attention to any educational projects formally approved by the host organisation. The interview will also ensure that the candidate has carefully evaluated the organisations indicated in the application. Importance will be given to assessing the consistency of the courses delivered at the host organisations with the activities needed by the applicant.

The following scores will be assigned for personal reasons:

- a) Approved educational project (e.g. thesis, clinical and research activity) (max 6 points)
- b) Consistency of course content (max 3 points)
- c) Desire to find out and learn more about the country's culture (max 1 point)

For each applicant, the Committee will collectively examine and assess the curriculum, the result of language tests/certificates and interview, drawing up a ranking based on the total scores awarded for each of the aforementioned criteria.

SUMMARY OF THE ASSESSMENT CRITERIA	
1) APPLICANT'S CURRICULUM	Max 44 POINTS (average: 30 points + curriculum: 14)
2) KNOWLEDGE OF FOREIGN LANGUAGES	Max 26 POINTS
3) PERSONAL REASONS	Max 10 POINTS
<b>Total</b>	<b>Max 80 POINTS</b>

**School of Medical and Pharmaceutical Sciences (Medicine Area) – Notes to the Erasmus+ Notice for  
Study Purposes 2020/2021**

**Access allowed**

**LEVEL:**

- 1) “Undergraduate” level allows access to students enrolled on a single cycle master’s degree Course or three-year first degree course
- 2) “Postgraduate” level allows access to students enrolled on a master’s degree course or a single cycle master’s degree course
- 3) “Doctoral” level allows access to students enrolled on a research doctorate course or specialisation course

**SUBJECT:**

- 1) The “0510 Biotechnology” subject is reserved for students enrolled on the degree course in “Biotechnologies”.
- 2) The “0912 Medicine” subject is reserved for students enrolled on the single cycle master’s degree course in Medicine and Surgery.
- 3) The “0914 Medical Diagnostic and treatment technology” subject (Instituto Politécnico de Lisboa - Contact Prof. Livia Pisciotta) is reserved for students enrolled on the degree course in in “Dietetics”.
- 4) The “0914 Medical Diagnostic and treatment technology” subject (Instituto Politécnico de Lisboa – Prof. Italo Porto) is reserved for students enrolled on the degree course in “Cardiocirculatory Physiopathology and Cardiovascular Perfusion Techniques”
- 5) The “0914 Medical Diagnostic and treatment technology” subject (Instituto Politécnico de Lisboa – Prof. Ezio Fulcheri) is reserved for students enrolled on the degree course in “Biomedical Laboratory Techniques”.
- 6) The “0914 Medical Diagnostic and treatment technology” subject (Instituto Politécnico de Lisboa – Prof. Renzo Corvò) is reserved for students enrolled on the degree course in “Medical Radiology, Imaging and Radiotherapy”.
- 7) The “0914 Medical Diagnostic and treatment technology” subject (Instituto Politécnico de Lisboa subject (Contact: Prof. Carlo Traverso) is reserved for students enrolled on the degree course in “Orthoptics and Ophthalmological Care”.
- 8) The “0914 Medical Diagnostic and treatment technology” subject (Universidad de la Coruña - Prof. Leonardo Cocito) is reserved for students enrolled on the degree courses in Speech Therapy.
- 9) The “0914 Medical Diagnostic and treatment technology” subject (Universitat de València (estudi general) Prof. Leonardo Cocito) is **reserved** for students enrolled on the degree courses in Speech Therapy.
- 10) The “0915 Therapy and Rehabilitation” subject is reserved for students enrolled on the degree course in Physiotherapy, **except for the scholarship** to the Vrije Universiteit Brussels (Contact: Prof. Marco Testa), which is reserved for students enrolled on the Master’s course “Rehabilitation of Musculoskeletal Disorders”, **except for the scholarship** to Universidade da Coruña (Contact: Prof. Emanuele Cozzani), which is reserved for students enrolled on the degree course in Podology, **except for scholarships for the Fundación Universidad Católica de Valencia San Vicente Mártir** (Contact: Prof. Emanuele Cozzani) which are **reserved** for students enrolled on the degree course in Podology.
- 11) The “0913 Nursing and Midwifery” subject is reserved for students enrolled on the degree course in Nursing. **Students enrolled on the degree course in “Paediatric Nursing” and “Obstetrics”**

cannot take part.

For subject 0913, the places at the University of Sofia (Contact: Prof. Valentino Remorgida) are reserved for **students enrolled on the degree course in “Obstetrics”**.

- 12) The “0911 Dental Study” subject is reserved for students enrolled on the single cycle master’s degree course in Dentistry and Dental Prosthesis.
- 13) The “0111 Education Science” subject is reserved for students enrolled on the degree course in Vocational Education.
- 14) The “1014 Sports” subject is reserved for students enrolled on the degree course in “Motor Sciences Sport and Health” and students enrolled on the master's degree courses in “Sciences and Techniques of Preventive and Adapted Motor Activity” and “Technical Sports Sciences”.

**Note that, in addition to what is stated in the Erasmus Notice for Study Purposes 2020/2021:**

- 1) The Speech Therapy course at the Universidad de La Coruña (Contact: Prof. Leonardo Cocito) requires the student to have a level B1 certificate of knowledge of Spanish before departure.
- 2) The Medicine and Surgery course at the University of Lisbon requires the student to have a level B1 certificate of knowledge of Portuguese before departure.
- 3) As explicitly requested by the host organisation, the Medicine and Surgery course at the University of Barcelona requires the student to have a B1 level certificate of knowledge of Spanish or Catalan before departure.
- 4) As explicitly requested by the host organisation, for the Medicine and Surgery course at the University of Antwerp, students awarded an Erasmus scholarship for study purposes may only attend **theory courses and exams (no clinical traineeship)**.
- 5) As explicitly requested by the host organisation, the Medicine and Surgery course at the University of Graz requires the student to have a B1 level certificate of knowledge of German **to be presented on submission of the application**.
- 6) As explicitly stated by the host organisation, for the Medicine and Surgery course at the University of Lisbon student **will not be able to attend the course in Neurology**.
- 7) In the event of equal rankings being assigned, priority will be given to students who have not yet taken advantage of Erasmus grants and, if the scores and requirements fulfilled are the same, preference will be given to the younger applicant

**It is understood that, for all the organisations listed in the notice, candidates must check the Annex for the language requirements they must fulfil before departure.**
