ERASMUS+ STUDY a.y.2022/2023

SELECTION CRITERIA

The Erasmus selection process consists of:

- Interview
- Evaluation of the academic career

1) Interview:

The applicants will be allowed to the interview if:

- They are enrolled in a Master's degree course, Doctoral course or from the second year of a Bachelor's degree (three- or five-year long courses). Only students enrolled in the Bachelor's degree course of *Scienze dell'Architettura* can apply from the first year.
- Their average is above the 25° percentile of their degree course (groups A-B-C-D¹ of the enclosed tables for each degree course).

About categories A, B, C, D please note that:

- First year Master students (of the two years Master's degree courses): the evaluation will be made on the Bachelor's degree mark (Please check Tables I.2 and A.2 enclosed).
- Students of the expiring 5 years degree course will be evaluated on their career average (please check Tables I.1c and A.1b. enclosed).
- Doctoral students will be evaluated on Bachelor's and Master's degree marks (Please check Tables I.2 e A.2 enclosed).
- Students of the Bachelor's degree course of *Scienze dell'Architettura* 1 year will be evaluated on the basis of their entrance test mark.

2) Evaluation of the academic career (average marks weighted on credits and real duration of studies).

¹ Groups A-B-C-D refer to the ECTS European evaluation categories (European Grading System) where A represent the 90° percentile, B the 65° percentile, C the 35° percentile and D the 25° percentile.

Degree courses not in the list but of equal status will be suitably treated as equivalent Degree courses.

INTERVIEW EVALUATION CRITERIA

- 1) **REASONS TO GO ABROAD**: students' motivation will be evaluate on the basis of congruity between the students' career and the courses offered by their destination choices. Students are required to submit a draft of the Learning Agreement for the destinations they indicate on their application. Students should get in touch with the Erasmus office and the referent of their destination in order to verify the congruity of their LA with their study course guidelines.
The selection committee may examine and value the motivation of candidates who won an Erasmus scholarship in a.y. 2020-21 and couldn't leave due to Covid-19 emergency.
- 2) **LANGUAGE KNOWLEDGE**: the selection committee evaluates candidates' language knowledge on the basis of the certificates issued by the Linguistic Centre of Genoa University or other certification bodies. The selection committee may give a penalty to the students who didn't take any test for the following languages: **English** (strongly recommended), **French, German, Spanish and Portuguese**.

Following the selection process a performance ranking will be issued. Please note that destinations will be assigned on the basis of the performance ranking. It is therefore recommended, before the interview, to take in consideration further suitable destinations in case the ones indicated on the application are assigned to candidates with a better position in the ranking. Please communicate your supplementary destinations to the selection committee during the interview.
