

CALL FOR THE AWARD OF MOBILITY SCHOLARSHIPS FOR TRAINEESHIP PURPOSES FOR

ACADEMIC YEAR 2020/2021

Pharmacy Area Courses

Prerequisites and selection criteria

Students who intend to compete for the award of a scholarship in the Pharmacy Area must fulfil the following prerequisites:

- Minimum average (in absolute terms) 24/30
- Ratio between CFUs [university credits] gained and the total number of CFUs in the study plan of 30% or more

In addition to the specifications contained in the selection Call, minimum requirements are set for undertaking traineeship activities in the context of the Erasmus+ Programme depending on the organisations of interest:

University of Barcelona

Being enrolled on the **Specialised Degree** course in Pharmacy or Pharmaceutical Chemistry and Technology.

Having gained 200 CFUs [university credits] and having already passed the Pharmaceutical Technology, Socio-economics and Legislation I exam; not having undertaken the professional traineeship in a hospital pharmacy.

University of Lisbon – Postgraduate degree course:

being enrolled for the 4th year (or higher) of the Degree Course in Pharmacy or Pharmaceutical Chemistry and Technology, having taken the Plant and Animal Biology (Pharmacy) or Plant Biology and Pharmacognosy (Pharmaceutical Chemistry and Technology) exams, achieving a mark of 27 or higher.

University of Lisbon – Doctorate course:

being enrolled for a doctorate in chemistry and undertaking a doctoral thesis on a subject related to environmental chemistry;

or being enrolled for a doctorate and having gained a specialised degree with a thesis on a subject related to environmental chemistry.

The criteria used to draw up a single ranking are set out below:

- study curriculum: score equal to the average of marks stated in the application (calculated in the application or recalculated based on self-certification);
- certified linguistic knowledge: aforesaid score increased by 1, 1.5 or 2 points respectively for sufficient, good or excellent knowledge.
- purposes of the period abroad: score increased by 0.5, 1 or 1.5 based on compatibility with the teaching offered by the foreign organisation if is considered adequate, good or excellent respectively.

The score obtained by each student will be increased by a certain percentage based on the personal reasons verified during the interview, particularly the statements made by the student in the application.
